## Emirates Energy Star

### Referral for BANK MELLI IRAN, DEIRA

We would like to express our satisfaction and appreciation for Emirates Energy Star, a national – level energy efficiency programme in the UAE implemented by Pacific Control Systems, in conjunction with Etisalat.

Bank Melli Iran, Deira joined the Emirates Energy Star programme in October 2012. The facility is an 79,374 square foot office premises with 3B+G+M+9 floors. Energy conservation measures (ECMs) were implemented on the Carrier Chillier plant as well as the Fresh Air Handling unit. These systems were monitored and controlled remotely through the 24\*7 Pacific Control Systems Global Command Control Centre.

Due to the timely monitoring and continuous commissioning carried out by the Pacific Controls Team, our maintenance costs were significantly reduced which led to increased equipment life and improved equipment performance. Also, we greatly appreciate the fact that the carbon footprint reduction has exceeded the originally promised target by a significant value.

Emirates Energy Star programme through its energy management strategies delivered us extraordinary savings of 31% on our energy bills over 18 months with an average Return On Investment of 4 months. This performance transcends the proposed savings and aids the Corporate Social Responsibility of Bank Melli Iran.

We are sure our experience with Emirates Energy Star will continue to be a positive one throughout the period of the project. We appreciate their heartfelt efforts towards their aim of contributing to the Green Initiative 2020 and are proud to be a part of this initiative.

Sincerely,

Bank Melli Iran  
DGAM
